PROFESSIONAL SUMMARY

An enthusiastic B.Tech student specializing in AI and Data Science with a strong foundation in machine learning and Python. I have applied ML concepts using Python to analyze data and build predictive models. I am eager to learn, contribute, and grow in a real-world engineering environment.

EDUCATION

Erode Sengunthar Engineering College

B.Tech — Artificial Intelligence & Data Science | **CGPA: 7.9**

Perundurai, TN

2023 – 2027

C.K.K. Matriculation Higher Secondary School

Higher Secondary Certificate (HSC) | **Percentage: 90%**

Gobichettipalayam, TN

2023

TECHNICAL SKILLS

Languages & Databases: Python, SQL, MySQL, DBMS

Libraries: NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow/Keras

Tools & Web: Git, AWS, VS Code, JIRA, BeautifulSoup, Selenium

Relevant Coursework: Machine Learning, Deep Learning, Python, DSA, SQL & NoSQL, Web Development

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Critical Thinking

WORK EXPERIENCE

AI & Data Science Intern

Cybernaut (Online)

Dec 2025 – Present

Remote

- Developing a Movie Sentiment Analysis System to scrape and analyze IMDb movie reviews using Python, BeautifulSoup, and Selenium.
- Implementing Natural Language Processing (NLP) techniques to classify viewer sentiments as positive or negative.
- Gaining hands-on experience in Web Scraping, Data Cleaning, and building predictive models.

ACADEMIC & PROJECTS

Deepfake Detection Using CNN | Python, TensorFlow, OpenCV

- Developed a CNN-based model with Transfer Learning to classify media as 'Real' or 'Fake' by analyzing facial artifacts.
- Achieved high detection accuracy by preprocessing datasets using OpenCV for face cropping and noise reduction.

E-commerce Product Sentiment Analyzer | Python, Selenium, NLP

- Built an automated scraper to extract Amazon product reviews and classify user sentiment using NLP techniques.
- Visualized customer satisfaction trends and rating insights using Matplotlib and Pandas for decision-making.

Smart Trip Planner Application (Ongoing) | Flutter, Firebase, Google Maps API

- Developing a cross-platform mobile app to generate personalized travel itineraries based on user budget and interests.
- Integrating Google Maps API for real-time navigation and Firebase for secure user authentication and data storage.

CERTIFICATIONS & COURSES

Cybernaunt Course, TECH-TRIO (3 Months): Learned Python, Java, and C++ fundamentals.

Introduction to Data Science: Completed on May 26, 2025; covered data analysis, visualization, and basic machine learning concepts on Infosys Springboard.

PRESENTATIONS & EXTRACURRICULAR ACTIVITIES

1st Place, Paper Presentation: Secured first place at R. P. Sarathy Institute of Technology (Oct 2025) for presenting "NutriSmart: An AI-Based Nutrition Recommendation System".

Paper Presentation: Presented the same research at KPR Institute of Engineering and Technology (Mar 2025), earning a certificate of participation.
